

Midwest Renewable Energy Association, in partnership with Wisconsin Farmers Union Presents:
Renewable Energy Options for Farms and Value-Added Food Producers

Friday, January 27, 2012
1-5pm
The Plaza Hotel & Suites
201 N. 17th Ave • Wausau, WI

In this 4-hour primer course, participants will review model systems at work in the Midwest to understand how renewable energy systems are used to support a variety of farm processes. The course will review renewable energy basics, system types, system performance characteristics, and general costs. Course content will specifically address electricity production, water heating, space and process heating, and electric transportation.

Course cost: \$20 (special WFU annual convention rate!)

Prerequisites: None

Registration deadline: January 20, 2012

Register by mail by sending in the form below along with payment, or register online at:
<https://www.midwestrenew.org/workshops#SA>

*This is a pre-convention workshop to be held in conjunction with the Wisconsin Farmers Union 81st Annual Convention. The energy workshop is open to both WFU members and non-members. For more information on the convention or becoming a member of Wisconsin Farmers Union, visit:
<http://www.wisconsinfarmersunion.com>*
